**Company Secretary and Compliance Officer**

Encl.: As above

## Mahanagar Gas Commences PNG Supply in Dombivili

Mumbai, September 14, 2017: Mahanagar Gas Limited, one of India's leading city gas distribution company, started Piped Natural Gas (PNG) supply in Dombivili (East) area with the residential societies in Milap Nagar being the first households to receive domestic PNG.

MGL supplies eco-friendly and safe Compressed Natural Gas (CNG) and Piped Natural Gas (PNG) in Mumbai Metropolitan Region (MMR) and Raigad district.

Dombivili (East) is a part of MGL's Kalyan-Dombivili-Ambarnath-Badlapur (KDAB) zone. As a part of its expansion plans, in the last couple of years, MGL has laid down its infrastructure of steel and polyethylene pipeline in Dombivili (East) area. This underground network of 28 Km and 25 km of above ground gas network has been laid in various locations including MIDC Residential and MIDC Industrial belt (Phase I & II).

The underground network of about 4 km in MIDC phase -I and in Milap Nagar MIDC residential has been successfully gasified for providing PNG in this area. To expedite the supply of PNG to the domestic households, the work inside the buildings of these societies have commenced and is under progress. MGL will shortly provide safe, reliable, economical and environment friendly fuel-PNG to the residents of these societies.

With progressive gasification of this laid network, the PNG supply to more and more domestic households, industrial & commercial customers in this area will be provided in a phased manner.
